

AQUAFLOAT-600

600mm dia. Marker Buoy

The Sealite Advantage

- High visibility red, green, white or yellow as per IALA recommendations
- Excellent buoyancy

The Sealite Aquafloat-600 is a rotationally moulded marker buoy designed to give customers flexibility in their floating aid requirements.

A large central eye suits a 55mm OD pipe mount, or may be used to aid installation or provide multiple rope anchorage points.

The Aquafloat-600 is urethane foam filled to prevent water ingress in the unlikely event of damage, and is offered in all high-visibility IALA colours.
