Range of Applications

AIRREFRESHMENT is specially designed to remove extreme smells which do occur on board ships, for example, from holds carrying cargo with extremely strong smells which must be removed before new cargo is loaded.

AIRREFRESHMENT is with advantage used whenever a bad scent is to be neutralized in toilets, bathrooms, offices, smoking rooms, kitchen, engine room, etc.

Directions for Use

AIRREFRESHMENT can be sprayed in large areas, preferably through hatches, with spraying machines of various types.

AIRREFRESHMENT should be sprayed out in different directions in smaller areas by pressing the button of the spray bottle at regular intervals.

AIRREFRESHMENT is delivered in 500 ml. plastic bottles and 25 litre drums.

For Better Rust Protection and Lubrication Worldwide
